## ITALIAN COSMETICS

The Italian brand Linea MammaBaby has a range of organic toiletries for mothers and babies that are in complete harmony with environmental concerns. The use of extracts from plants grown on organic farms ensures that their products are non-toxic and paraben free, before being dermatologically tested. Italian cosmetics in adorable packaging that children will adopt in a flash.

## GRAPHIC DESIGNS

Deliberately 1980s in mood, Hugo Loves Tiki's "Dreamy Pastels" collection comprises organic cotton garments with various graphic motifs, i.e. unicorns and kittens, which may be girly, but are never insipid. Unique clothes full of mischief.
